

## Instructions

It is important to have information that is up to date and in a secure place where you can access it, either printed or online. We have created five online files to help you capture and store this valuable information. After you gather and document the information, print one or more copies and save the files to a secure place where you will be able to access them in an emergency.

All online tools are set up to print on 8-1/2 x 11-inch paper in landscape mode.

### Continuation of Operations Plans

There are two COOP files in Word. Each file includes detailed instructions:

1. COOP-by-disaster.docx
2. COOP-by-task.docx

### Continuation of Operations Lists

There are three list files in Excel; each one is divided into a number of **worksheet tabs**. Be sure to review all the tabs and fill out the ones that apply to your organization.

#### **inventories.xlsx**

Worksheet tabs:

1. Key Documents
2. Office Inventory
3. Technology Inventory
4. Software Inventory
5. Online Software & Subscriptions
6. Backups
7. Media Inventory
8. Equipment & Vehicles
9. Land & Buildings

#### **people-contacts.xlsx**

Worksheet tabs:

1. Employees
2. Volunteers
3. Board Members
4. Insurance Policies
5. Key Donors

#### **resources-partners.xlsx**

Worksheet tabs:

1. Partners
2. Neighborhood Resources
3. Alternate Work Sites

#### **Alternatives to Excel**

If you don't want to use Excel, you can still capture the data using a different tool. You might prefer to use Word or a text-based tool, or you might prefer to use a database program. Just **make sure that the solution you choose is easy to access after a disaster**, no matter how tech-savvy the user is.

On the following page, we have listed all the fields from the Excel documents. Use this list to make sure you document everything you need in your chosen format.

### Continuation of Operations Lists: All the Data

If you use the Excel files we've created, all you have to do is open the file and start entering the data. The following lists are provided for users who'd like to capture their data using a different tool.
